Assistance for Councils

Grants are available to meet the additional costs of emergency work to restore essential services, including the provision of emergency levee banks, which are in excess of normal operations.

Grants are available to meet 100 per cent of eligible emergency works and 75 per cent of eligible restoration works up to \$116,000 with 100 per cent cost recovery beyond that level. The Department of Services, Technology and Administration (formerly Department of Commerce) administers this assistance. The contact person is Neil Birks (02) 9372 8871.

Trustees of Parks and Reserves

Provided the facilities concerned constitute "public assets", grants may be made available to those parties (e.g. trustees) responsible for managing Crown Land, parks and reserves, who do not have the financial capacity to meet restoration costs from their own resources. Sporting Clubs

A special scheme is available to assist sporting clubs in meeting the costs of restoration of essential club facilities that have been damaged or destroyed. The assistance is made available to those clubs which do not have the financial capacity to meet restoration costs from their own resources, but which have the capacity to repay any loan that may be granted.

Under these arrangements the maximum assistance available is \$12,000, including a grant of up to \$2,000 and the balance by way of repayable advance with interest at the rate of 2.77 per cent per annum. Treasury administers this scheme.

The contact person is Brian Lin on (02) 9228 5198.

This finance is available to those unable to obtain assistance through normal channels.

Churches and Voluntary Non-profit Organisations

Loan assistance is available to churches and voluntary non-profit organisations for the restoration of essential facilities that have been damaged or destroyed. Eligible groups will usually perform a service for the community or environment and are funded by grants or donations.

Non-profit organisations that perform a commercial function, charge a fee for a service or represent commercial or industrial groups, e.g. industry bodies are not eligible for assistance. These organisations can recover costs from their members or through fees.

As with other schemes, assistance is only available to those organisations which do not have the financial capacity to meet restorations costs from their own resources, insurance and are unable to obtain assistance through normal channels.

Advances are subject to a maximum of \$25,000 at 2.77 per cent interest per annum. Treasury administers this scheme.

Motor Vehicle Stamp Duty Relief

Motorists whose cars have been written off as a result of a natural disaster may be eligible for a stamp duty refund on their replacement vehicle. Refunds are made where the written off vehicle was comprehensively insured and the insurance does not cover duty for a replacement vehicle.

The Office of State Revenue administers these refunds and can be contacted on 1300 139 814.

Commonwealth/State Natural Disaster Arrangements

The above Schemes are eligible for Australian Government financial assistance, usually by way of partial reimbursement of actual expenditure, under Australian Government Natural Disaster Relief and Recovery Arrangements. Under the cost sharing formula, NSW pays for the first \$119.7 million of natural disaster costs each year, and can claim from the Australian Government half of all eligible Personal Hardship and Distress costs within this first threshold. The Australian Government then matches NSW expenditure for costs between \$119.7 million, and \$209.5 million and beyond that covers three quarters of all costs.
