* A Total Suspended Solids sample (TSS) was not obtained at EPA point 5 on 15/12/2016 due to the parameter not being specified to the laboratory on the chain of custody form. At the time of sampling, TSS was required to be monitored six times per reporting period as per EPL 11715 (Licence version date 16/06/2014), a total of eight TSS samples were collected during the 2015-2016 reporting period. This was displayed in the 2016 Annual Return and was not a non-compliance.
